

**Ian Brown's Cycle Shop Service Centre**  
**Price List**  
**(Labour charges only – Parts used charged extra)**

**Full Service - £95.00**

This service involves stripping the bike down to the bare frame and all removed items overhauled and refitted to bike. This is recommended annually to bicycles of high frequent use. It includes the following:

Bike stripped to frame/forks which are then checked for alignment and damage.  
Headset and Bottom bracket cleaned & inspected for wear and refitted.  
Wheel hubs bearings cleaned & checked for wear.  
Tyres checked for condition, tyres inflated to correct pressure.  
Wheels checked for spoke tension and trueness and rim wear.  
Gears & Brakes cleaned, checked for condition, refitted & adjusted.  
Brake pads checked for wear.  
Transmission cleaned, checked for wear, lubricated and re fitted.  
Bike re assembled, all nuts & bolts tightened using correct torque settings.

**Commuter's Service - £65.00**

Same as General Service below but also includes the following:

Transmission Parts removed, cleaned, checked for wear, lubricated & re fitted.

**General Service - £45.00**

The General Service frequency will depend on usage however we recommend six months. During the General Service the whole bike is checked for condition and adjusted. It **does not** include stripping the bike down or cleaning and degreasing. It includes the following:

Frame & Fork inspected for alignment & damage.  
Headset & Bottom Bracket checked for adjustment.  
Wheel Hubs checked for adjustment.  
Wheels Rims checked for trueness and condition.  
Tyres checked for condition & inflated to correct pressure.  
Gears & Brakes checked & adjusted correctly.  
Transmission Parts checked for condition & lubricated.

The replacement of cables and brake pads is common in the General Service and this greatly improves gear changing and braking performance. The cost of cabling is not included in the service.

**Basic Service - £30.00**

The basic service is for bikes needing a check rather than a service. It is included free with every new cycle we sell within three months of original purchase. It includes the following:

Headset & Bottom Bracket checked and adjusted.  
Crank bolts tightened.  
Gears & Brakes cables adjusted as necessary.  
Wheels checked for trueness.  
Wheels hubs checked for adjustment.  
All nuts & bolts tightened using correct torque settings.  
Transmission lubricated. (Please add £2.00 for quality lubrication)

**Pre Delivery Inspection / Assembly - £30.00**

This is the assembly of a bicycle not supplied by us. The bike will be inspected & assembled then adjusted and road tested.

**Transmission Service - £25.00**

This can greatly improve the performance of a bike. The whole transmission parts are removed & cleaned then reassembled & lubricated. The alignments of the gear mechanisms are checked & cabling adjusted.

**Brake Service - £15.00**

Front & rear brake cables removed and checked for condition, lightly lubed & refitted or replaced if required (any parts not included in price). Brake pads will be checked for wear & condition & replaced if necessary.

**Gear Service - £15.00**

The front & Rear gear mechanisms will be inspected for damage, cleaned & lubricated, cables removed & inspected, replaced if necessary (any parts not included in price), aligned and adjusted to indexing and road tested.

**Hydraulic Brake Service - £20.00 each**

Hydraulic Disc Brakes will be cleaned & inspected for damage or wear. Brakes will be bled with fresh hydraulic fluid. Pads will be renewed if necessary (any parts not included in price)

**Wheel Building - £30.00 each**

We can build any wheels by hand using any combination of rim & spoke. We can advise on various spoke patterns most suitable to your requirements. Price is for labour only and does not include cost of spokes, rims or hubs.

**Wheel Truing – From £8.00**

Depending on how much time it takes to true a wheel and so price varies accordingly.

**Punctures**

Wheel only, Front or Rear - £6

Front Wheel Puncture on the bike - £10

Rear Wheel Puncture on the bike - £10

Rear Wheel with hub gear on the bike - £15

Rear Wheel on Electric Bike - £20

**Suspension Service Handling Fee - £20.00**

Due to the specialist nature and tooling required for fork rear suspension servicing we will send your unit to the most appropriate service agent, usually Tim Flooks or Mojo. We will remove your fork, package it & post it. On its return we will re fit it to your cycle and test ride.

**Cleaning Fee - £20-00**

Includes de-greasing with "Muc Off" and rinsing.

**Fitting of Fork - £20.00**

Includes cutting the fork to size and fitting of brake and other associated parts.

**Fitting of Bottom Bracket - £15.00****Fitting of Headset - £15.00**

**Re tape handlebars - £15.00**

**Replace Chain - £10.00**

**Replace Cassette - £10.00**

**Fitting accessories onto new cycle – Free**

If accessories are purchased from Ian Brown's Cycle Shop at time of purchasing new cycle then these will be fitted free of charge.

**Fitting accessories – From £5.00**

For fitting lightsets, computers, carriers, bottle cages etc. a minimum charge of £5.00 will be levied.

**Storage - £5.00 per week**

While your bike is with us for waiting for repair and or spare part to arrive we will store it for you free of charge. For extended storage following completion of repairs we will charge a fee of £5.00 per week.

**Courtesy Bikes – Free of Charge**

To keep you cycling while your bike is in for repair we are able to offer you a courtesy bike free of charge. Courtesy bikes are limited and available on a first come first served basis.
